3 June 1982

NOTE FOR: [redacted] OGI 25X1

SUBJECT: Nuclear Proliferation Conference

This is to invite you to make the conference presentation as noted in the attachment. Please RSVP to [redacted] (Room 4G15) at your convenience. I am also thinking about scheduling a special evening session devoted to Argentina, specifically prospects for an acceleration in nuclear development en route to weapons and a possible test. We could show the BBC program, "Germany and the Argentine Bomb," as part of the session (perhaps introductory) followed by a presentation of your analysis and ending with general discussion. 25X1
